Partnership Model

PhD research project
- project based in university
- IP owned by university
- company pays £5,500/yr
- university pays £8,250/yr
- academic budget of £3,500/yr
- Reflects second year stipend for 2023/24 £20,194

EngD research project
- project based in company
- IP owned by company
- company pays £13,750/yr
- university pays £3,300/yr
- academic budget of £3,500/yr
- Reflects second year stipend for 2023/24 £26,201

Partners & Research

Training Programme

We provide a comprehensive 4-year training programme suitable for graduates of MPhys, MEng and related programmes.

Full-time technical courses occupy the first eight months of Year 1, leading to 120 credits (60 ECTS).

Semester 1 is spent in St. Andrews, and students normally move to Glasgow for Semester 2.

After completing the technical taught courses students relocate to near their sponsoring company's site, remaining there for the rest of the programme.

Business courses delivered over three long weekends in Years 2 and 3 provide a further 60 credits (ECTS).

Professional skills courses are distributed across the programme, and their content is profiled according to each year of study.
