

# Scottish Universities Summer School in Physics SUSSP81 Photonic Sensing and Metrology for the UN Sustainable Development Goals

**Sarah Bohndiek**  
*University of Cambridge*  
Cancer imaging technologies

**Greg Rieker**  
*University of Colorado Boulder*  
Greenhouse gas sensing

**Jian Jin**  
*Purdue University*  
Agricultural sensing

**Stephanie Loeb**  
*McGill University*  
Water contaminant detection

**Damien Weidmann**  
*RAL Space*  
Earth observation

**Justus C. Ndukaife**  
*Vanderbilt University*  
Optical nanotweezers for healthcare

**Accelerate your career with development sessions from:**

- Alison McLeod (Technology Scotland) • Farnaz Mohsenpour (Heriot-Watt University)
- Yann Amouroux (Optica) • Jennifer MacDonald (RAEng)
- Leonardo Del Bino (CDT alumnus / Akhetonics) • Natalie Flaherty (CDT alumna / Thales)

**7–15 June 2025,  
Stirling, Scotland**

Open to international PhD students and early-career researchers

**Apply by  
28 February 2025**  
Limited bursaries available
